Summer Foundation Researchers worked with Professor Barry Willer, author of the Community Integration Questionnaire (CIQ), to extend the original tool to include a measure of the use of electronic social networking for social integration.

The result is the Community Integration Questionnaire-Revised (CIQ-R), which was used to gather normative data on Australian adults of working age (i.e. 18-65 years).

This booklet includes a copy of the CIQ-R, the new scoring guidelines, and detailed tables of CIQ-R normative data and subscale data, stratified by Sex, Age, Education, Income, Co-residency status and Area of residence.

ABN 90 117 719 516

For bulk (more than 3) or international orders please phone +61 3 9894 7006
