

# Housing Connections Showcases

## Queensland

For people with disability, supporters and service providers

**Our Housing connections workshops are designed to create lasting networks between Specialist Disability Accommodation (SDA) providers and NDIS participants.**

Join us as we aim to connect local NDIS participants, families and supporters with providers and developers of SDA in Queensland.

Through these events, we are bridging the gap between SDA providers and NDIS participants in Queensland, ultimately creating a place for:

- SDA providers with active SDA developments to connect with participants, their families, carers and support coordinators
- NDIS participants and their networks to build their understanding of the NDIS and housing, and to connect with both potential co-residents and housing providers

### You can expect to learn about:

- Housing and the NDIS
- How SDA works
- Navigating the market
- What's happening with SDA now
- Current and future SDA vacancies in Queensland

### Who should attend:

- NDIS participants, families and supporters
- SDA providers
- Support coordinators and allied health professionals
- Supported Independent Living providers
- Developers
- Financial planners
- Anyone interested in SDA

### SDA providers: Are you interested in showcasing your local SDA projects?

We would like to invite you to be a stall holder at this event. There is no cost involved. We will provide a trestle and chairs, we just ask that you supply your own banners and marketing material. Please email [rhiannon.martin@summerfoundation.org.au](mailto:rhiannon.martin@summerfoundation.org.au) to advise which locations you would like to have a stall at.

Project funded by the Commonwealth Department of Social Services

We are an online community of people with disability and housing providers. We are working together to create accessible housing options. The Housing Hub website is a great way for people with disability to find suitable housing.
